OUTREACH: TEACHER & STAFF SURVEY

2020 | FACILITIES MASTER PLAN

OUTREACH Teacher & Staff Survey

Teachers and staff across all school sites participated in an online survey regarding facilities. Similar to the Principal survey, the questions focused on the existing functionality of the facilities. First, they were asked to rate, on a scale of 1 to 5, the functionality of:

- General Education Classrooms
- Student Services and Counseling spaces
- Staff and Administrative spaces
- Assembly Spaces (GLC, Library)
- Specialized Project / Electives Spaces (science, music, maker, computer lab, STEAM room)
- Physical Education / Athletics Buildings

The raking scale was a selection of one of the following five categories:

1. Terrible, needs to be replaced with new construction
2. Needs to be expanded / reconfigured
3. Functions well, but needs an update of finishes
4. Functions well, but needs new furniture / technology
5. Excellent!

After each space ranking, teachers and staff were asked to write-in their ideas for improvement.

Two concluding questions asked them to select their top 3 priorities, the first regarding existing spaces and the second regarding desired new spaces.

820 total responses were submitted. See the following pages for the results.
