

PLANNING / OUTREACH - PARENT & COMMUNITY SURVEY

Mt. Diablo Unified School District **Facilities Master Plan**

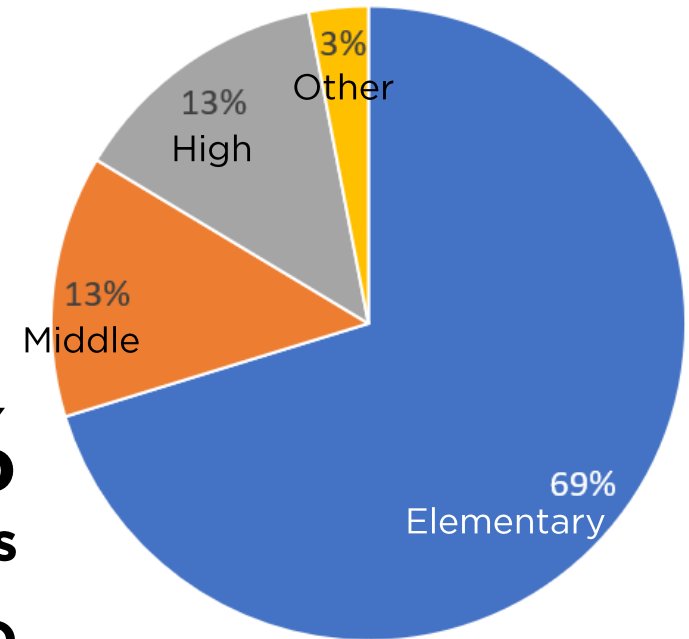

Mt. Diablo Unified School District Facilities Master Plan

PARENT & COMMUNITY SURVEY

A survey was distributed to parents and other community members. This survey was available online as well as print-form, in English and Spanish. After a few initial questions to get to know the audience and their associated school site, respondents were asked to select their top 3 priorities regarding existing spaces that currently require the greatest amount of improvement, then to select their top 3 priorities regarding desired new spaces or enhancements at their school.

3,460 total responses were submitted. The pie chart to the right identifies the distribution of responses in relation to school type. The "other" category applies to those who do not have children within the district, or those associated with Adult Education programs. See the following pages for the survey results.
